

GREAT HEART SEED

HT-7341

113 DAY

KEY STRENGTHS

Dependable with top end
Very good disease ratings
Very stable and consistent
Strong standability

MANAGEMENT TIPS

Better than others across soil variation
Disease tolerance and agronomics make it versatile
Most populations work well
Can be used corn-on-corn with a fungicide

VT2PRO

HT-7341 This is the kind of hybrid you want to plant. It consistently brings in top yields when compared to other hybrids across all soil types and productivity levels. It has very good stalks and roots as well as intactness well into the fall. It has the dependability to be the hybrid you count on year after year.
