

GREAT HEART SEED

GT-4632XFS

Mid-Late Group IV

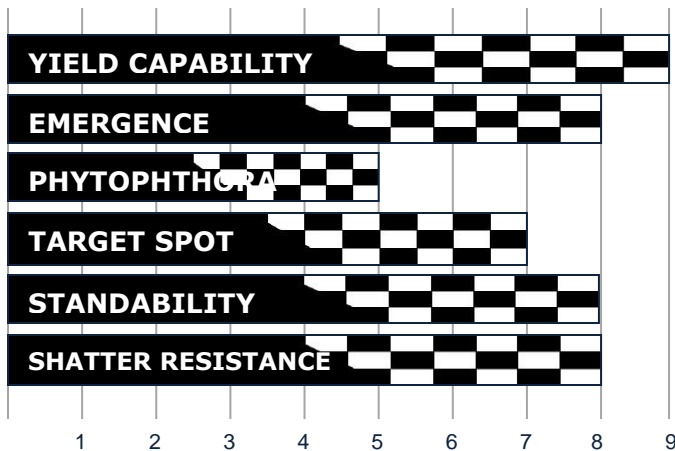

GT-4632XFS This bean works in so many areas and spikes in yields when compared to others. It does great on clays but even better in mixed to loams. A line that gives that table top appearance in the field. GT-4632XFS is the type that wins the big yield competitions and then goes to work setting new yield levels on your farm.

KEY STRENGTHS

- Top yield records across regions
- Strong durability under stress
- Good agronomics for the region
- A plant type that supports yields in many environments

MANAGEMENT TIPS

- Strong line for most soils in the Delta
- A good choice to spread genetics
- The disease package gives good protection for most concerns
- Good choice for Target Spot
